

Species: _____

EGG CHART-NON FERTILE AND "DIS" RECORDS

ASSESSMENT OF FERTILITY AND OR STAGES OF DEAD IN SHELL						
Species: _____		Cage ID: _____		Parents ID	F: _____	M: _____
Approx. Date Laid _____		Total Clutch size _____		Egg Order _____		
Retrieval Date from Nest _____				Shape:	Normal	Abnormal
Condition of Egg when Retrieved:			Egg found in:		Nest	Cage Bottom
Cold	Porous	Egg Dirty	Sufficient Substrate in Nest:		(Y)	(N)
Warm	Ca Deposits	Egg Repaired	Measurement of Egg L		W	
Cracked	Ca Streaks	Egg Washed	Fertility:	Non-fertile	Fertile	Unsure
Artificially Incubated:		(Y)	(N)	# Days		
Reason to artificially incubate:		Unreliable Parents		Disease Prevention		
Prefer hand raising Day 1		to stimulate reclutching		Other		
Calcium for shell collected to be submitted for research (Y) (N)
